## EXECUTIVE SUMMARY

1. This reactive investigation was initiated subsequent to the medically unattended death of Djiboutian National Youssouf A. MOHAMED (V/MOHAMED), CIV, aboard Camp Lemonnier, Djibouti (CLDJ). On 14Sep15, V/MOHAMED, who worked in the Dorie Miller Galley aboard CLDJ, was observed by coworkers collapsing behind the galley while retrieving an asthma inhaler from his personal locker. CLDJ Fire and Emergency Services responded to the scene, where they found V/MOHAMED to have a weak pulse. Resuscitation efforts commenced and V/MOHAMED was transported to the CLDJ Expeditionary Medical Facility (EMF). EMF personnel began Advanced Cardiac Lifesaving Support (ACLS) measures upon V/MOHAMED's arrival to the EMF. After performing ACLS for approximately twenty minutes and receiving no response from V/MOHAMED, he was pronounced deceased by the EMF Senior Medical Officer. NCIS received a delayed notification concerning the death of V/MOHAMED, after the scene of V/MOHAMED's collapse was returned to public access and CLDJ personnel had notified the Djiboutian authorities concerning the death of V/MOHAMED. NCIS was allowed to photograph the body of V/MOHAMED at EMF just prior to the transfer of the body to Djiboutian authorities. No signs of physical injury were noted at the time photographs were taken. V/MOHAMED did not receive an autopsy and his body was immediately prepared for burial on 15Sep15, in keeping with Muslim traditions. The asthma inhaler that V/MOHAMED was attempting to utilize at the time of his collapse was located in the rear of the ambulance that transported V/MOHAMED to the EMF. It was recovered and entered into the NCISRA Djibouti Evidence Custody System along with a second inhaler and a blister pack of an over the counter medication, Metronidazole, taken from V/MOHAMED's personal locker. Photographs, sketches, and measurements were taken from the area of V/MOHAMED's collapse. Interviews were conducted with personnel who provided treatment to V/MOHAMED at the EMF, as well as with his coworkers who observed his collapse and other coworkers who had knowledge of V/MOHAMED's past use of an inhaler. Special Agent (b)(6), (b)(7)(C) NCIS Forensic Consultant, was notified, advised of the
